-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species A: a method of making the first embodiment of the filter (Figures 2 and 3; Specification, Paragraphs 40-41);

Species B: a method of making the second embodiment of the filter (Figures 4 and 5; Specification, Paragraph 42);

Species C: a method of making the third embodiment of the filter (Figures 6 and 7; Specification, Paragraph 43);

Species D: a method of making the fourth embodiment of the filter (Figures 8 and 9; Specification, Paragraph 45);

Species E: a method of making the fifth embodiment of the filter (Figures 10-13; Specification, Paragraphs 46-49);

Species F: a method of making the sixth embodiment of the filter (Figures 14-17; Specification, Paragraphs 50-52);

Species G: a method of making the seventh embodiment of the filter (Figures 18-21; Specification, Paragraphs 53-56);

Species H: a method of making the eighth embodiment of the filter (Figure 22; Specification, Paragraphs 60-63);

Species I: a method of making the ninth embodiment of the filter (Figure 23; Specification, Paragraphs 65-66).

Art Unit: 1763

2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are fully generic.

3. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

4. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

5. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
